motive and aim is to create awareness, re-shaping the knowledge already created and challenge the existing theories related to the field of Academic Research in any discipline in Technology and Engineering. **American journal of Engineering Research (AJER)** has a primary aim to publish novel research being conducted and carried out in the domain of Engineering and Technology as a whole. It invites engineering, professors, researchers, professionals, academicians and research

scholars to submit their novel and conjectural ideas in the domain of Engineering and Technology in the shape of research articles, book reviews, case studies, review articles and personal opinions that can benefit the engineering and technology researchers in general and society as a whole. As earlier stated, there is no special emphasis on just one topic but emphasis is given on all the aspects that can be covered in the domain of Engineering and Technology,
