Dear Author(s),

We have received the review reports for your paper "Economic Impact of Community Forest Management on Household Conditions of Farmers (Case Study of Farmers' Household in Bulukumba Regency South Sulawesi, Indonesia)".

We require now that you implement in your submission the following recommendations made by the reviewers:

Reviewer A Comments:

=====

Changes which must be made before publication:

This MS is interesting. However, there are several comments as indicated below:

1. This MS is more suitable to International Journal of Agricultural Resources, Governance and Ecology as its deal with Forest Management on Household Conditions of Farmers (e.g. we can transfer it to this journal in later stage if author can not develop the link as raised).
2. This journal scope is Environment and Sustainable Development, what is the link between Community Forest Management on Household Conditions of Farmers and Environment and Sustainable Development is missing.
3. Introduction brings relevant concerns in the study matter but the potential outcome is not clear enough.
4. Why 'Economic Impact of Community Forest Management is so important for farmer is not clearly defend.
4. A sound discussion section is required with relevant discussion.

Reviewer B Comments:

=====

Changes which must be made before publication:

The title is so long, it should be short. Suggest title: Economic Impact of Community Forest Management on Farmers.

In Abstract please include introduction and conclusion. Please paraphrase it again.

Introduction is so short make it at least 1 and half page with various related references with appropriate citation.
How many population in your study not mentioned and how you select 40 respondent for that there is no justification.
Please describe more about Poverty Rate Analysis based on Sajogyo's theory
How you calculate Poverty Rate?
Your references is too old and very few
Sajogyo. (1977) in reference not in text citation Sajogyo's (1982) is not same.
All of the reference is not found in the text citation except Suharjito, D. (2004).
(Forest Service of South Sulawesi Province 2004) there is no reference found in the reference list.
Should mention the source of all table.
English proofread is highly recommended.

Dear Author/s,

Ref: Economic Impact of Community Forest Management on Farmers: An Indonesian Perspective

Thank you for uploading the final version of the paper and the author agreement. However, the agreement does not show the names of all the authors. Please note that copyright forms must have every author's name listed above the title of the paper even if there is only one signature on a copyright form and the other authors have sent separate ones. All authors' names must appear on every form with separate signatures and likewise if all signatures are on one form then all authors' names must also be there.

Thus, the upper part of the form should read as:
