Sudirman Numba:

We have reached a decision regarding your submission to Biodiversitas Journal of Biological Diversity, "Genetic diversity of *Durio zibethinus* Based on Random Amplified Polymorphic DNA (RAPD) with relationship resistance against *Phytophthora* sp."

Our decision is: Revisions Required

Reviewer A:

Dear author(s),

Thank you for submitting the revised manuscript **Genetic diversity and its association with *Phytophthora palmivora* resistance in Durian (*Durio zibethinus*)**. It has improved in content and quality after the first revision. However, some revisions are still required before being accepted for publication in Biodiversitas journal. My suggestions for each section of the manuscript are as follows:

1. **Title:** Please revise.
2. **Abstract:** Please revise and should not be more than 200 words.
3. **Introduction:** It is about 400-600 words, covering the background and aims of the research. Please add previous studies related to using RAPD markers for identifying *palmivora* or other diseases in the 4th paragraph.
4. **Materials and Methods:** Please rewrite Procedures and Data analysis.
5. **Results and Discussion:** Please make a deeper discussion and rewrite conclusion.
6. **Acknowledgments:** please write Acknowledgments.
7. **References:** Please recheck and make sure that all references have been cited in the text and vice versa.
8. All comments are presented in the manuscript. Please read carefully and make appropriate revisions.

Good luck.
